FOOTBALL TEAM DISBANDED AND PUPILS WRATHY

WISCONSIN, Oct. 22.—Because the faculty and the players on the Marquette basketball team could not agree on a schedule and football manager John J. O'Connell and coach Walter J. McLaughlin could not agree on a meeting of the athletic association, which has been in existence since 1906, the organization two years ago, was disbanded.

Watson McIntosh captain and Walter McIntosh manager of the basketball team were informed last week by Principal Charles F. Jacobs that they could not meet with the faculty to discuss the basketball season. This week included a few of the players on the team, but they were not allowed to play a game. Principal Jacobs censured the entire team for not being able to agree on a meeting.

This disbanded the team and an enraged McIntosh and his players met at a secret meeting of the association and voted to leave the school. The school principal's history has such telling occurred between the two sides. The school principal has been the main students' wrath over the school's policy of not allowing students to be in school, many of whose affinity and activities are being held by the school's faculty and students. The school's policy is to be taken to force a treaty between the school and the students. The school's policy is to be taken to force a treaty between the school and the students.
